PRESS RELEASE

Energy Statistics in Kosovo, August 2023

24.10.2023
The Kosovo Agency of Statistics (KAS) has released the "Energy Statistics" for the month of August 2023 with data on the production and consumption of coal, the production and consumption of energy, the import and export of energy as well as the import and export of other energy sources.

Wind and solar energy generation increases

During the month of August 2023, the available gross electricity was 514.42 GWh, while the electricity consumption was 416.14 GWh or 14.51% greater, compared to the same month of the previous year (August 2022).

The share of alternative electricity in total consumption was 8.9%.
Coal production was about 6.50 thousand tons, or 13.32% more than in the same month of the previous year.

Overview of production, consumption and ratio of electricity in August 2023 to August 2022

MWH	08-2022	08-2023	VIII 2023 / VIII 2022 %
Gross production from power plants	447,177	386,064	-13.67%
Gross production from hydropower plants	8,442	11,155	32.14%
Gross production from wind and solar	21,968	25,901	17.90%
Import	355,236	293,908	-17.26%
Export	367,025	202,609	-44.80%
Gross electricity available	**465,799**	**514,419**	**10.44%**
Household	204,333	209,219	2.39%
Commercial	99,155	108,900	9.83%
Industry	40,368	45,523	12.77%
Public lighting and other	2,818	2,700	-4.19%
Consumers 220-110kv	8,963	41,539	363.46%
Mining	7,782	8,254	6.06%
Electricity consumption	**363,419**	**416,135**	**14.51%**
